

M-POWER says: “*Nothing about us without us!*”

An organization run by and for a diverse community of people with mental health disabilities, we operate on a grass-roots basis to affect change on every level.

FYI—In June of 2007, M-POWER and the Transformation Center have become two separate organizations. M-POWER will continue its grassroots activities and will be funded by membership dues and donations. Call to join! M-POWER is more focused than ever on our continuing fight for rights, respect and decent treatment. The legislature now is considering three bills, one for peer-run respites/crisis centers, one for improved emergency room rights, and one for enforcement of the Five Fundamental Rights AND the Fresh Air Campaign combined into one bill.
